The Fall Educational Meeting of the Iowa Chapter IAEI was called to order at 1000 hours on October 14, 2010 by President Mel Duncan who then led the Pledge of Allegiance. Dennis Jordison provided the invocation. Storm Lake Building Official, Scott Olesen, spoke a bit about the community and welcomed attendees. He then introduced Assistant City Administrator, Justin Yarosevich, who also welcomed everyone to Storm Lake. After the guest speakers, President Duncan introduced Tom Giordano from Ronk Products for his presentation regarding code changes and product updates. Next up for presenters was Rob Weber, representing Alliant Energy, to provide insight and information about utility requirements. Weber answered many questions from the attendees.

After lunch, Dave Sullivan gave a very informational presentation about wiring methods in fueling and dust locations as they relate to agricultural installations. And our final presenter for the day was Rick Chambers with a short class on transformers.

The day ended at 1700 hrs for most attendees, the Executive Board met later in the evening and the minutes from that meeting are attached.

On Friday, after coffee and rolls, Ed Larsen with Square D/Schneider presented about wire temperature ratings and terminations. Don Iverson with NEMA was up next with a great breakdown of the residential wind generators. The rest of Friday's educational content included a LED lighting and signage lecture by Tom Lichtenstein, grounding and bonding review with Rod VanWart, and an update on the State of Iowa Licensing program by State Board Chair, Barbara Mentzer. Interspersed between lectures, the code panel made up of Tom Lichtenstein, UL; Dwight Kramer and Ed Larsen, Square D, answered questions submitted by the attendees. These questions and answers will be posted on the Chapter's website at [www.iowaiaei.com](http://www.iowaiaei.com).

The Fall 2010 Educational meeting was adjourned at 1500hrs.

Respectfully submitted,
